Hi Michele,

Sure. Mike Toland has a tour he has put together that he has taken many people on in the past and will be your tour guide as well. It's best to communicate directly with him to get a feel for timing, distances and things you want to see.

You will have the Round Mountain Aquifer Exemption proposal by then, so I am assuming that you may want to see that area. We currently have two more proposals at the Water Board for review that we think will be delivered to EPA in the near future, Tejon and Fruitvale, so maybe you will want to see those too. Fruitvale includes the Alon and San Joaquin Refineries in the project so has additional relevance with those wells on which you have been dealing directly with them. These are all East side proposals.

Hot on the heels of these three proposals will be some of the biggest ones that we will be submitting, including Elk Hills, South Belridge, Cymric, Mckittrick and Midway Sunset, all on the West side of the Valley. These have not yet been submitted to the Water Board however. Mike can give you a feel for how to work one or more of those locations in if you have interest.

I have copied Mike on this note, but his direct telephone number is 661-334-3662.

Subject: Scoping of June Site visits and meetings

Hi Bill,

I was hoping to have a quick call with you or others in your office to “map” out our time for site visits and meetings, since you are more familiar with travel distances etc. Would you let me know who I should coordinate with?

Thanks!

Michele
